Pasindu Malinda

Intern DevOps Engineer

OBJECTIVES

As a motivated and ambitious Information Technology undergraduate in the third year, I am seeking a challenging internship opportunity in the field of Information Technology. Armed with a robust skill set in Cloud Engineering, Web Development, DevOps, proficient programming languages (Python, Java, JavaScript, etc.), and foundational knowledge of AWS cloud services, I am eager to apply my knowledge and contribute to innovative projects. Additionally, I possess strong competencies in Git for version control and Linux for operating system management, which further complement my technical toolkit My goal is to gain hands-on experience, further hone my technical skills, and make meaningful contributions to a dynamic team, ultimately fostering my growth as a skilled professional in the ever-evolving landscape of technology.

ACADEMIC PROJECTS

SOCIAL MEDIA WEB APPLICATION

MongoDB, Express.js, React.js, Node.js, Chakra UI

SoulLift: Depression-focused social platform promoting mental wellbeing, fostering support and connections among users.
See Project

SOCIAL MEDIA WEB APPLICATION

Spring boot, React.js, Tailwind CSS

In a group project, I played a key role in developing a fitness-oriented social media platform, focusing on REST endpoints, user interfaces, and backend/frontend integration
See Project

FOOD MARKET MANAGEMENT SYSTEM

MongoDB, Express js, React js, Node js, Bootstrap

Yumx: MERN-based platform for seamless ordering, payment, and delivery from diverse food stalls with a user-friendly interface.
See Project

ONLINE EXAMINATION SYSTEM

MVC-Architecture, Java, MySQL

E Net Education: Java-based MVC Online Exam System using MySQL for streamlined academic organization and intuitive web interface
See Project

GitHub Docker and Jenkins CI/CD Pipeline(Non Academic)

GitHub, Docker, Jenkins

Implementing a CI/CD pipeline using GitHub, Docker, and Jenkins to automate the building, testing, and deployment of applications in a non-academic environment.
